

Smoking Cessation Program

If you smoke and have made a decision to stop smoking, Coldwater Creek would like to reward you for achieving your goal. The Company will reimburse you for expenses that you have incurred that are directly related to this important goal in your life. You must submit a letter of intent that includes your start date, along with your signature and your immediate supervisor's signature. After the completion of your goal and six months from the start date indicated in your original letter, submit another letter attaching receipts for any items that you used in your endeavor to stop smoking. Please sign, date and have your immediate supervisor also sign the letter and return to your respective benefits department.

This program is for employees only.
